Our Commitment to You

Lintons' top priority is the safety and the well-being of our associates and those we serve. We recognize the concerns about COVID-19 and want to keep you updated on what we are doing to provide safe foodservice environments for students, families, and staff at your school.

Training

Associates have received additional training on enhanced operation standards and the use of personal protective equipment, and additional signage reinforces new procedures.

Face Covering & Glove Use

Associates wear face coverings at all times and use disposable gloves during operating procedures, which are replaced frequently throughout the day.

Staff Wellness

We educate all of our associates on behaviors that reduce transmission and perform daily COVID checks. Associates not feeling well are instructed to stay home and obtain medical clearance before returning to work.

Hand Washing

Frequent hand washing during food preparation and serving is our standard safety measure. Additional hand washing protocols have been implemented, and hand sanitizer stations have been strategically placed.

Cleaning & Disinfecting

In addition to our extensive daily cleaning procedures, we have added anti-bacterial wipes to easily disinfect all high-touch areas for added protection.

Social Distancing

Lintons associates abide by all social distance requirements whenever possible and implement delivery staging areas to prevent clustering.
