

Why play a game when you can create it?

Free STEM workshop for middle schoolers.

Every child deserves a chance to shape the world. But they don't always have the tools to do it.

That's why we've launched the Verizon Innovative Learning STEM Achievers program - an immersive program developed to ignite STEM passions through design thinking, 3D printing, augmented reality and social entrepreneurship.

 Full day workshop on December 7, 2024, from 9 am to 3 pm.

 Community College of Allegheny Campus

For more information, please contact
Dir. Bilita McIntosh at bmcintosh@ccac.edu or 412-371-1055

This program empowers every student with the tools they need today to become the STEM leaders of tomorrow. No prior knowledge or experience is required.

Program details

- In-person workshop.
- Lunch provided.
- Inclusive of all genders.
- Free to all students from local middle schools.
- Campus tours for parents and students.

Share this with a parent or student in your life.
